

EDGE196™ aims to place alongside major disruptors

EDGE196™ aims to disrupt the venture capital industry by creating an ecosystem of security, stability, and enhanced benefits for startups seeking funding, investors looking for suitable investments, and service providers willing to work with a highly-motivated and passionate group of entrepreneurs.

We envision a time when industry participants will regard EDGE196™ as the standard benchmark. No longer will investors accept opaque, centralized fund management, and disproportionately high cost and risk, for low to moderate returns.

Transforming venture capital...  **EDGE196™**
